

Settings for WLAN Security

The WLAN security settings have been changed. For a successful WLAN connection you must now make the following settings in the configuration of your WLAN adapter.

Name of the radio network (SSID):	FRITZ!Box Fon WLAN 7170 Annex A
Kind of encryption:	WPA + WPA2
Password:	sterremuurweg15
Mode:	Infrastructure
Authentication:	WPA-PSK, WPA2-PSK
Data encryption:	TKIP, AES-CCMP

We recommend printing out these settings.
